

Miwa Fujii
APNIC

Miwa Fujii is currently the APNIC Senior IPv6 Program Specialist. Her role is to assist the Asia Pacific Internet community in managing issues related to IPv4 address exhaustion and the transition to IPv6.

She is responsible for various projects that support the smooth transition to IPv6 including outreach activities to multi-stakeholders.

Miwa regularly represents APNIC's view on the transition to IPv6 at global IPv6 Summits and Forums, intergovernmental organisations such as APEC, APT, SPC, and other conferences around the Asia Pacific region.
